## Agrihire it Your labour solutions

AGRIHIRE is an agricultural equipment hire business based in Dalby.

Their aim is to provide a variety of agricultural equipment such as self propelled and trailed sprayers, tractors, combine harvesters and grain handling equipment to contractors and the general farming community.

These items can be dry hired on an hourly, daily or weekly basis.

Hire enables the farmer/contractor to have all the advantages of a good, reliable modern machine without having the worry of service, maintenance and repair costs or the commitment of paying for it when he/she doesn't need it.

If the machine breaks down, one phone call can have it fixed or replaced immediately.

This cuts out the costly down time all farmers and contractors are familiar with.

Agrihire charges are also 100 per cent tax deductible, and depreciation worries are a thing of the past.

For further information please call Scott on 0448168515 or check out [www.agrihire.com.au](http://www.agrihire.com.au).

LOCKYER Valley farmers can put their trust in Labour Solutions Australia with the founder of the business, Andrew Northcott, at the helm of the thriving business.

Over the past five years, the labour hire group has become a multi-million dollar organisation and has been named three times by BRW Magazine as Australia's fifth fastest growing businesses.

The prestigious Queensland 400, a list of Queensland's top 400 privately owned companies also named Andrew's business as one to watch.

In 2007 a minor shareholding was sold to Ken Warriner, Chairman of Consolidated Pastoral Company.

Labour Solutions Australia has focused on the niche horticulture market, providing a sophisticated and professional harvest labour supply solution to the horticulture sector.

Labour Solutions Australia has worked closely with some of Australia's largest organisations such as Rewards Group.

The recent Industrial Relations changes have been of great concern to growers across Australia with the 'modern awards'

MANAGING Director Andrew Northcott.

slugging growers with an increase in the casual loading to 25 per cent and introduction of overtime after standard working hours have been reached.

Labour Solutions Australia is in the fortunate position of holding a 'pre-fairness test' collective agreement which provides clients with the ability to maintain current staff remuneration structures whilst outsourcing all employment risk/liability and administration.

## Vandy's get you prepared for fire season

GET ready for the fire season with a fire-fighter pump from Vandy's Water Solutions Bathroom and Plumbing Centre.

These fire-fighters have a Honda 4-stroke motor for guaranteed performance and reliability when you need it most.

Vandy's has a pump to suit any situation: home, garden, submersible bore, greywater or septic.

They also carry a range of 12 volt pumps from 8-120lpm for spray packs and general use.

If you need a pump for a pond or fountain they have that too, they even have the pond.

Orange Pumps is our major pump supplier, they are an Australian company owned and operated by the Davey Family with over 50 years experience in the pump industry.

Orange Pumps incorporate the latest world best manufacturing and materials.

Their designs include the use of high grade cast iron, engineered mouldings and corrosion resistant stainless steel.

Orange warrant their pumps for up to 24 months against manufacturing defects, some even have 36 months.

Vandy's can get you out of trouble with a new Pressure Tank with a five year replacement guarantee.

You will find a range of fittings, hoses and pipe to go with your pump.

A pre-filter will protect your pump from suspended particles, recommended when the water contains a large amount of sediment.

If you want to improve the quality of your water Vandy's also have a range of Water Filtration Products, from bench top models right through to whole house and Ultraviolet.

Call in and check out Vandy's at Shop 5, Karl Complex, Gatton (between the BP Servo and Caravan Park).
